KHIN HIE Products 2013-2014

1. Secure Clinical Messaging/DIRECT
2. Provider Portal
 - Full HIE-Query functionality
 - Web based access
3. Personal Health Record
4. State level interfaces
 - Immunizations
 - Syndromic Surveillance
 - Reportable Diseases
 - Cancer Registry
 - Infectious Disease Registry
5. Alerts and Data Extracts

Benefits of Using HIE to meet MU2

Tying MU to HIE Functions

1. Transitions of Care
 - HIE crosses organizations
 - Query and DIRECT
2. Transport of Public Health Measures
 - Limited State Level Resources
 - EHR vendor creates the message -HIE transports
 - HIE can add necessary data-facility code or filtering
3. Patient Engagement
 - Single location for patient data
 - Providers can work together to achieve MU2 % requirements
 - Single location for secure messaging
