Program Objectives:

Attendees will better understand:

- Discuss the scope and standards of nursing informatics practice.
- Describe professional practice, trends and issues within the informatics nurse role.
- Explore management and leadership issues affecting informatics in healthcare settings.
- Identify key concepts in informatics, information technology, information management, knowledge generation and data security.
- Consider human factors in relation to information technology systems.
- Describe models and theories associated with informatics.
- Delineate steps of the system life cycle as it applies to information technology in the health setting.

Nursing Informatics Boot Camp

Presented by: Susan K. Newbold, PhD, RN-BC, FAAN, FHIMSS, CHTS-CP

This intensive two-day course focuses on current informatics trends and issues in health. It includes content for nurses interested in becoming Certified Informatics Nurses. Other clinical professionals working in informatics may wish to take the course to become exposed to the course topics.

Susan K. Newbold, PhD, RN-BC, FAAN, FHIMSS, CHTS-CP, is a Healthcare Informatics Consultant, Franklin, TN. Previously she was the Education Lead for the implementation of the Electronic Health Record (EHR) at the Hospital Corporation of America, Nashville, TN. She is uniquely qualified to teach this course as she has experience in the vendor, consulting, academic and hospital world. Dr. Newbold is Board Certified in Nursing Informatics and initiated the first review course in nursing informatics in 1995 which she taught over 100 times. In 2001 she won the Sigma Theta Tau International Honor Society of Nursing International Technology Award for Knowledge Advancement for this course. She is the HIMSS 2015 Chapter Leader of the Year.

Nursing Informatics Boot Camp
